

WHAT!

Excellent hearing. At such a great price?

Watch the Interton Share movie with your smart phone. All you need is a free application. Download Scanlife® to your smart phone and simply scan the code.

Interton - Essential Hearing

Founded in Germany in 1962, Interton today is part of one of the world's largest hearing instrument organizations, the GN Group. We use their proven core technology in a way that falls in line with our own way of doing things. We believe that most people need a straightforward, functional and easy-to-use hearing solution at a fair price. So that's what we give them.

YES!

You heard right

Interton Share™ is a reliable, easy to use family of digital hearing aids that bring you a great listening experience at a very attractive price. In addition, they're designed in a variety of styles, colors and power options to suit your individual lifestyle and needs.

A great hearing experience

Wearing Interton Share™ hearing aids you hear life as it's meant to be heard. They imitate the organic sound processing of the human ear to bring you rich, clear and natural sounds. The hearing aids include a feedback management system that protects your ears from uncomfortable and annoying whistling, and directionality options that let you understand speech, wherever it comes from. So you can hear people comfortably, even in a noisy restaurant.

PERFECT!

It's built to last and easy to use

Enjoy all-day comfort

Small, discrete and attractive, you can wear our hearing aids all day without knowing they're there. It's easy to open the robust battery door and you can easily switch the hearing aid on and off. There's also a numbered volume control* with a start-stop function so you can listen at the exact level you want.

It's been put to the test

Interton Share™ hearing aids have been put through a stress test to make sure they can withstand everything life can throw at them. They're also nano-coated with an ultra-thin polymer layer that coats every part of the hearing aid to give it maximum protection from humidity, sweat and dust. So they'll have a longer life and are easier to clean.

Resistant and sturdy design

Easy to use push button

User friendly volume control

Strong battery door

**Share 65 doesn't have a numbered volume control.*

WOW!

So many choices

A model to fit your needs

We're all different - with unique needs. Interton Share™ is available in a variety of options so your hearing care professional can tailor your hearing aids exactly to your needs and wants.

Choose from 5 colors to suit your hair or skin tone, the power level you need, and the type of hearing aid you like. Either the tiny, In-the-Ear models, or the discreet Behind-the-Ear forms.

Whatever you want, there's an Interton Share™ hearing aid that suits you.
